DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 10/8/2008, with respect to claims 1-10 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

Allowable Subject Matter

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record fails to teach or fairly suggest the *combination of all limitations* of claim 1 that includes **“each of said plurality of photo-sensors corresponding to a particular pixel included in an imaging frame, each of said plurality of photo-sensors comprising a first photosensitive cell having first sensitivity for photoelectrically transducing incident light to generate a signal charge and a second photosensitive cell having second sensitivity lower than the first sensitivity for photoelectrically transducing incident light to generate a signal charge”** and **“said first photosensitive cell has a first photosensitive area and the second photosensitive cell has a second photosensitive area smaller than the said first photosensitive area, and wherein the shading characteristic of said first photosensitive cell used by said corrector relates to said first photosensitive area and the shading characteristic of said**

second photosensitive cell used by said corrector relates to said second photosensitive area.”

Regarding independent claim 7, the reason for allowance has been stated by the Applicant in the remarks filed 10/8/2008.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
